

# MINI-BBX CPR

This is the 2.1 inch version of our popular Black Brant X as shown on our [Scale Kits page](#), but this one is fully-equipped with our CPR3000 Dual-Deployment Recovery System! The Mini BBX is very close to true scale and comes with detailed painting instructions. The Mini BBX is perfect for Level 1 Cert flights as it flies using high-impulse G through I motors in its 29mm MMT. The tail cone at the base of the rocket is designed to fit the optional Terrier Booster Stage for a truly authentic Black Brant X two-stage flight. The CPR3000 Mini BBX kit includes a Quantum Tube airframe, a specially designed tail cone, and G-10 fins, as well as the CPR3000 system as described on the [CPR3000 page](#). Add an altimeter and you're ready to fly!

### Features Include:

- Scale kit
- Pre-slotted Quantum Tube airframe
- Equipped with CPR Close Proximity Recovery system
- G-10 fiberglass fins
- Piston ejection system
- Multi-panel nylon parachute
- Plastic nosecone
- Urethane tailcone
- Explicit instruction

**Dia.: 2.1" Height: 61" Weight: 48 oz. MMT: 29mm Chute size: Streamer & 30" Launch lug: 1/4"**

## Recommended motors and predicted altitude chart

All motors shown are Aerotech. Information displayed as Altitude in Feet, Optimal Delay in Seconds

Re-load kit	H128W	H238T	H97J	H180W	H220T	I200W
Mini BBX, 29	2155,10.00	1826,9.54	2022,9.69	2885,11.52	2462,10.83	3972,12.91
Re-load kit	G104T					
Mini BBX, 29	606,5.49					
Single Use Motor	G80T	H55W	H70W			
Mini BBX, 29	819,5.27	2417,9.26	2497,9.87			

Shaded cell means this motor/rocket combination requires absolutely top-notch construction to fly successfully.

Other motors can also be used but some may require modifications to the kit.

Always refer to the Motor Recommendations Chart at [www.publicmissiles.com](http://www.publicmissiles.com) for the latest information.
